

be
CREATIVE

Plain colours, neutrals or bright tones, abstract designs inspired by nature. New, **TRUE SCALE** decors celebrate the natural beauty of wood in its true form and scale. The *VIVIX*[®] panels range is developed in collaboration with architects and chromatography consultants to offer the most extensive range of decorative possibilities.

All colours in the *VIVIX* range have undergone rigorous testing to ensure UV stability in accordance with EN 438-2 test methods 28 & 29 for colour fastness and weather resistance. Panels are tested for severe use compliance.

VIVIX® by Formica Group offers you **TRUE SCALE**, the next generation of woods reproductions represented in the real scale of natural timber, depicting the patterns, striking veining and rich color variations of real wood across the width of the VIVIX panel. In exterior, large-scale applications, **TRUE SCALE** gives you the effect of endless wood grain, avoiding the repetition of smaller patterns in more conventional decorative surfaces. With **TRUE SCALE** enjoy all the practical advantages of robust architectural panels with the exclusive look and scale of real timber, without the associated expense and maintenance issues.

BYGGVARUBEDÖMNINGEN

Please note, not all sizes of panel are available with all certifications.

Designs given in this publication have been matched as closely as printing conditions allow. We do recommend, however, that you order samples before final specification, fabrication or installation, as the colour samples in the brochure may differ in shade, hue, tone or brightness to the products purchased.
