Surface Finishes

Claystone [CL]

An uneven dry stone finish mixed with clay brushes effect to create a very artful match with dual matte gloss levels. Recommended for light-duty horizontal and vertical applications.

Matte™ [M]

A finish which enhances the beauty of colour and produce a greater clarity and depth. Recommended for horizontal and vertical applications.

Gloss [G]

A finish for maximum smoothness and reflectance. Recommended for vertical applications. Due to its reflective surface, scratches may show up more easily compared to other finishes.

Natural Carved Wood [NC]

A finish which is ingeniously etched with grooves which has a striking resemblance to the ornate beauty of handcrafted wood carvings. Recommended for light-duty horizontal and vertical interior applications.

Timber Grain [TG]

A timeless and natural wood grain finish with its natural sheen and random linear ticks to give an eye-catching sophistication to the wood design. Recommended for light-duty horizontal and vertical applications.

Dual Matte [DU]

A premium matt finish, smoothly balanced silkiness and roughness with a soft touch, brings high-end look and feel to all kinds of decors.

Pearl (PL)

An ultra smooth finish with low levels of light reflection to give a luxurious silky touch. Recommended for horizontal and vertical application

Interior Matte™ [IM]

A medium sheen finish with realistic grain appearance, making it ideal for surfaces where you desire the character of wood. Recommended for horizontal and vertical applications.

Knit [KN]

Usable knit texture with sophisticated fabric craft features which gives a very delightful look and hand touch.
